

You may know me as “that newsletter lady.” I’ve lived in the building for 24 years and served on the Board for 4 of those years. This past year, I focused on improvements that make life better for everyone. I researched grants and subsidies for future energy projects, networked monthly with co-ops citywide to gain insights, and revived the newsletter to foster community. I also created illustrated garbage and recycling guides, handy refrigerator magnets with key contacts, and a Welcome Packet for new residents. I’d appreciate your vote for another year—there’s more I’d like to accomplish on your behalf!
